The letter should indicate the tutor contacts, internship duration, purposes, remote and distance working modalities (if the internship is to be performed in this way), and the foreign language required during the placement stage.

The Foreign Internship Unit does not provide a standard form of the document: the candidate should ensure that said document includes all the details specified in the previous section.

Should the candidate selected as winner presented an entity which has not yet signed an agreement with the University, the student should submit two copied of the agreement to the Foreign Internship Unit according to the guidelines submitted during the initial stage of the internship and, in any case, by 1 month from the internship starting date⁵.
